### EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Steve Benintendi on 9/20/2007.

The application has been amended as follows:

In claim 1, *original* lines 1-7 have been amended as follows:

1. (Currently Amended) A kit for creating a spinal fixation assembly comprising:

a polyaxial bone screw having a first end constructed and arranged for threaded engagement in a spinal bone by application of an effective amount of rotational torque, and a second end constructed and arranged for swivelable attachment of a linking member;

~~[[said linking]]~~ a linking member having a first end constructed and arranged for attachment of a connecting member and a second end constructed and arranged for swivelable attachment to said second end of said bone screw;

*Note: original lines 8-15 remain as amended in the response filed 2/19/2007 beginning with "a connecting member..."*

The following is an examiner's statement of reasons for allowance:

Applicant's arguments filed 8/16/2007 with respect to have been considered and are deemed persuasive. Additionally, other relevant art was discussed with applicant (Brace et al. 6,187,005) not previously cited and was deemed to lack a non-rotational linear force on a first end of a linking member, as claimed by applicant. As such, the claims in the instant application have not been rejected using prior art because no references, or reasonable combination thereof, could be found which disclose or suggest the device of the independent claims 1 and 15 including a polyaxial bone screw with a connecting member, a linking member, and a linear fastener that applies non-rotational torque to secure the spinal kit in use.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James L. Swiger whose telephone number is 571-272-5557. The examiner can normally be reached on Monday through Friday, 9:00am to 5:30pm.

Art Unit: 3733
